

Refund Request

Dss

To install Magento 2 Discount Limit extension:

Step 1: Unzip the file.

Step 2:

Create a new directory: `app/code/Dss/RefundRequest`. `RefundRequest` is the module's internal identifier which can be found in the "composer.json" file of the downloaded compressed file. (Please see node "psr-4").

Step 3:

Upload to root file of your Magento installation to have this directory `rootfile/app/code/Dss/RefundRequest`. The Magento root directory contains directories such as "app", "bin", "lib" and more. All directories should match the existing directory structure.

Step 4:

Go to Magento 2 root directory. Enter command line:

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:static-content:deploy
```

```
php bin/magento cache:flush
```

1. How It work?

Refund Request by Customer for Magento 2 extension allows customers to submit a refund request on the Customer Account Page. Admins receive the notification of new refund request and accept or reject that request on the Refund Request Grid.

1.1 - General Configs

1.1.1 - General

Go to **Stores ⇒ Configuration ⇒ DSS ⇒ Refund Request by Customer**.

General Configuration

Enabled
[store view] Yes

Version 0.0.1

Apply Refund Request for Orders
[store view]

- Canceled
- Closed
- Complete
- Suspected Fraud
- On Hold
- Payment Review
- PayPal Canceled Reversal
- PayPal Reversed
- Pending
- Pending Payment

- In **Enabled**, choose Yes to enable the extension, or No to disable it.
- In **Apply Refund Request for Orders**, choose the types of orders to apply the refund function.

1.1.2 - Refund Request Popup

Refund Request Popup

Popup Title
[store view] Refund Request

Fill in the name of the Refund Request popup

Popup Description
[store view] We are sorry to know that you want a refund, Please tell us what trouble you,

Fill in the description of the Refund Request popup placed under the popup title.

Enable Dropdown Field
[store view] Yes

Title of Dropdown Field
[store view] Specify whih type of refund

Please go to Sales > Refund Request Dropdown Options to create new options for the dropdown.

Enable Yes/No Field
[store view] Yes

Title of Yes/No Field
[store view] Product is opened?

Title of Refund Reason Field
[store view] Faulty or other reason in detail

This is field for customers to state the detailed reason of requesting a refund.

- In **Popup Title**, fill in the name of the Refund Popup.
- In **Popup Description**, fill in the description of the Refund Popup. This section is under the Popup Title.
Refund Popup consists of title, description, and other fields (dropdown, yes/no, text area field) to effectively collect customers' refund request.
- In **Enable Dropdown Field**, choose Yes to enable this field.
- In **Title of Dropdown Field**, fill in the title of this field.

Then go to Sales ⇒ Refund Request Dropdown Options to create the options for the dropdown field. See tutorial in 1.4.

- In **Enable Yes/No Field**, choose Yes to enable this field.
- In **Title of Yes/No Field**, fill in the title of this field.
- In **Title of Refund Reason Field**, fill in the title for this field. This is the text area field for customers to state why they want to refund.

Let's see an example to understand the component of Refund Popup:

The image shows a 'REFUND REQUEST' popup form overlaid on a blurred background of an e-commerce interface. The popup has a title bar with 'REFUND REQUEST' and a close button. Below the title bar, there is a description: 'We are sorry to know that you want a refund. Please let us know what's wrong'. This is followed by a 'Reason for refund' dropdown menu with 'Opened Box' selected. Below the dropdown is a 'Product is opened' section with 'Yes' and 'No' radio buttons. At the bottom of the form is a 'Faulty or other detail' text area. Two buttons, 'Send Request' and 'Cancel Request', are at the bottom right of the popup. Red arrows point from labels to specific parts of the form: 'Popup Title' points to the title bar, 'Popup Description' points to the apology text, 'Dropdown Field' points to the 'Reason for refund' dropdown, 'Yes/No Field' points to the 'Product is opened' radio buttons, and 'Refund Reason Field' points to the 'Faulty or other detail' text area.

1.1.3 - Email Configs

Email Configuration

Admin Email <small>[store view]</small>	<input type="text" value="info@digitsoftsol.com"/>
Comma-separated	
Email Sender <small>[store view]</small>	<input type="text" value="General Contact"/>
Notify Email Template <small>[store view]</small>	<input type="text" value="Notify Email Template (Default)"/>
Approve Email Template <small>[store view]</small>	<input type="text" value="Accept Email Template (Default)"/>
Reject Email Template <small>[store view]</small>	<input type="text" value="Reject Email Template (Default)"/>

- In **Admin Email**, enter the mail of admin who will receive the notification email each time the new refund request is submitted. In case you want to enter various admin emails at the once, please use comma to separate each email address.
- In **Email Sender**, select a person who is entitled for sending email.
- In **Notify Email Template**, select a template for email notifying new refund request to admin.
- In **Approve Email Template**, select a template for email notifying customers that their refund request is accepted.
- In **Reject Email Template**, select a template for email notifying customers that their refund request is rejected.

See the tutorial in 1.5 to create the email template.

1.2 - Order Grid

Go to **Sales ⇒ Orders ⇒ Order Grid**.
